

Unilong Industry Co., Ltd

Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China

Production name: Alcohol ether phosphate

Technical Indicators:

Appearance (25°C visual inspection)	Colorless or yellowish transparent liquid
Solids	≥95%
pH (2% aqueous solution)	≤ 3.5

Performance & Applications:

It has excellent decontamination, emulsification, lubrication, cleaning, dispersion, antistatic and anti-rust properties, excellent electrolyte solubility, acid and alkali resistance, hard water resistance, inorganic salt resistance, high temperature resistance, good biodegradability and low irritation. At the same time, it has strong degreasing power.

It is widely used as an antistatic agent in chemical fiber oil. It is used as the main ingredient of industrial alkaline cleaning agent and dry cleaning agent, metal processing working fluid, organophosphorus pesticide emulsifier, and textile oil agent. used as emulsion polymerization emulsifier, pigment dispersant, cosmetic emulsifier, oil well drilling mud lubrication dispersant, paper industry deinking agent; Degreasing agent, leveling agent for leather industry, etc.

Widely used in the daily chemical industry, it is one of the main components in shampoo and a variety of cosmetics.

Packaging & Storage:

200Kg iron drum, 50Kg plastic drum packing.

Storage and transportation as general chemicals. Store in a dry and ventilated place. The shelf life is two years.
