Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China  
Contact: +86-18653132120

**Product name: Acid Red 18**

**CAS: 2611-82-7**

**Molecular wight: 562.51**

Item	Standard
STRENGTH	100%±<2%
SHADE (CMC2: 1)	≤0.5
MOISTURE	≤8%
INSOLUBLE	≤0.2%
SOLUBILITY	≥50g/l
FINESS	≤8%

---

### **Application:**

Acid Red 18 as a food color can be used in fruit juice drinks, prepared wine, carbonated drinks, candy, pastry, ice cream, yogurt and other food coloring, but can not be used in dried meat, meat products, aquatic products and other foods. Acid Red 18 can be used for dyeing wool, silk, nylon and direct printing of fabrics. Because the dyeing fastness and evenness are poor, the color light is not as bright as acid red G, so wool textiles are less used. Acid Red 18 can also be used to color leather, paper, wood products, plastics, inks, cosmetics, medicine, food, etc.

### **Package:**

25kg/drum or according to customer requirements.
