

## TECHNICAL DATA SHEET

Product	Amides, coco, N-[3-(dimethylamino)propyl]
Chemical Name	COCAMIDOPROPYL DIMETHYLAMINE; PKO
CAS	68140-01-2
Chemical Formula	C <sub>17</sub> H <sub>20</sub> N <sub>4</sub> O <sub>2</sub>
Molecular Weight	312.3663
EINECS Number	268-771-8
Molecular structure	

### SPECIFICATION :

ITEM	STANDARD LIMITS
Appearance	Pale yellow or yellow liquid
Amine value	≤200
PH	9.0-10.5
Purity	≥99.0%

### Packaging:

25kgs drum, 200L drum, IBC drum or pack as customer requirements.

### Application:

As an emulsifier and thickener, this product is widely used in daily chemical, textile, oilfield drilling, pesticide emulsification and other industries

### Shelf Life:

2 years in original packaging containers.
