

TECHNICAL DATA SHEET

Product	Sodium cocoyl apple amino acids
CAS	68188-38-5
EINECS Number	614-365-4

Specification :

ITEM	STANDARD LIMITS
Appearance	Colorless yellowish transparent liquid
Solid content	28-32 %
Sodium chloride	≤5%
pH	6.5~7.5
Total bacterial population	≤100

Packaging :

200kg/drum or pack as customer requirements.

Application:

Sodium cocoyl apple amino acid, natural source, low odor and low color; product has no preservatives, mild performance, gentle to eyes and skin, low irritation to human skin; has excellent biocompatibility and degradability; foaming Strong, soft and rich foam. It is an important choice to reduce product irritation and improve product foam.

Shelf Life:

2 years in original packaging containers.
