

## TECHNICAL DATA SHEET

Product	HYDROLYZED WHEAT PROTEIN
Chemical Name	HYDROLYZED WHEAT PROTEIN;Glutens, enzyme-modified;
CAS	70084-87-6

### SPECIFICATION:

ITEM	STANDARD LIMITS
Appearance	White Powder
Proteins	≥80.0
Peptide content	≥25.0
Water(g/100g)	≤8.0
Ash(g/100g)	≤2.0
CFU/g	≤30000

### Packaging:

25kgs sealed polyethylene bags or 25kgs sealed polyethylene bags in fiber drum.

### Application:

Using a water-soluble hydrolyzed wheat protein feed with high digestion rate isolated from wheat protein hydrolysate, which has a large output in China, has a wide application prospect. Because it has no anti nutritional factors, it can promote the development of intestinal villi of piglets and obtain high feed conversion efficiency.

### Shelf Life:

2 years in original packaging containers.
